Marc H. Bennett

Marc H. Bennett is President and Chief Executive Officer at HealthInsight, a private, non-profit healthcare improvement company. HealthInsight holds the Medicare quality improvement organization (QIO) contracts for Nevada and Utah and sponsors the AHRQ-designated Chartered Value Exchanges (CVEs) in both states as well. HealthInsight is a recognized leader in the QIO industry in Transparency & Public Reporting, in HIT initiatives, Payment Reform efforts, Human Factors Science research and application, and for innovation in the Beneficiary Protection program. The company employs a staff of approximately 60 FTEs and more than 100 physician consultants. HealthInsight was just recently named as the lead organization for the Utah Beacon Communities project to demonstrate the value of effective HIT and HIE use.

Nationally, Mr. Bennett has just concluded his service as President and Board Chair of the American Health Quality Association (AHQA), the trade association for QIOs. He began his term in February 2007. Additionally, Mr. Bennett currently serves on the Quality Alliance Steering Committee (QASC), a body that coordinates federal and private sector quality initiatives in the United States. He is also a member of the National Advisory Board for the Center for Healthcare Quality & Payment Reform and serves as a Board member for the Network for Regional Health Improvement (NRHI).

In Nevada, Marc has been appointed as vice-chair of the Governor's Health Information Technology Blue Ribbon Task Force. Marc has served previously as a non-voting public member of the Nevada State Legislature's Interim Healthcare Committee. He also served previously as Board Chair for the Shared Health Information Network of Nevada and as a member of the Nevada Patient Safety Committee.

In Utah, Marc is currently Chair of the Utah Patient Safety Steering Committee, the coordinating committee for statewide quality and safety initiatives in the state. In addition, he is a member of the State-sponsored Governance Consortium for Health Information Technology in Utah. And he also serves as the Board Chair of the Utah Health Information Network, the community-based health information network and clinical health information exchange (cHIE).
