

Marc H. Bennett *President and Chief Executive Officer*

Marc H. Bennett is president and chief executive officer at HealthInsight, a private, nonprofit, community-based organization dedicated to improving health and health care, that is composed of locally governed organizations in Nevada, New Mexico, Oregon and Utah.

HealthInsight is a recognized leader in convening and partnering with communities to improve health and health care by advancing quality, efficiency and value for patients and providers. HealthInsight serves as experts in quality improvement; transparency and public reporting; use of health information technology; engaging patients to improve their health; and redesigning how care is paid for and delivered.

HealthInsight leads several innovation efforts for the Centers for Medicare & Medicaid Services and is the Quality Innovation Network – Quality Improvement Organization (QIN-QIO) for Nevada, New Mexico, Oregon and Utah, and the End-Stage Renal Disease Network in five other western states. The company has more than 200 full time staff.

Nationally, Mr. Bennett serves as chair of the Board of Directors for the Network for Regional Healthcare Improvement (NRHI), a member organization leading communities across the U.S. through an active and engaged network of Regional Health Improvement Collaboratives (RHICs). Mr. Bennett is a past president and board chair of the American Health Quality Association. He has also served on the Quality Alliance Steering Committee at the Brookings Institution, as a member of the national advisory board of the Center for Healthcare Quality and Payment Reform, and is a National Quality Forum representative on the John M. Eisenberg Patient Safety & Quality Awards Committee. He is a frequent contributor to national policy forums in health information technology, health information exchange and improvement, and is invited regularly to serve on advisory and planning committees or task forces associated with broad range of state, regional, federal and private national policy groups.
