

Elizabeth Mitchell

President and CEO, Network for Regional Healthcare Improvement

Former CEO, Maine Health Management Coalition

Former Chair, Board of Directors, Network for Regional Healthcare Improvement

Before assuming the role of President and CEO of the Network for Regional Healthcare Improvement on May 1, 2013, Elizabeth Mitchell served as CEO of the Maine Health Management Coalition, an employer-led, multi-stakeholder collaborative whose mission is to improve the value of healthcare services in Maine. Elizabeth also served as the CEO of the Maine Health Management Coalition Foundation, which is dedicated to performance measurement and public reporting and engaging the public in the use of cost and quality information. The Coalition is actively engaged in payment reform and health system redesign with its many partners.

Mitchell served as Chair of the Board of Directors of the Network for Regional Healthcare Improvement, serves on the Board of the National Quality Forum, serves on the Board of the National Business Coalition on Health and as Chair of NBCH's Government Affairs Committee; and serves on the Coordinating Committee of NQF's Measure Application Partnership. She also serves as chair of Maine's Chartered Value Exchange, a convener of Maine's Aligning Forces for Quality project, and on the Advisory Council of the Maine Quality Forum.

Previously, Mitchell worked for MaineHealth, Maine's largest integrated health system, where she led several transparency and quality improvement efforts. She served two terms in the Maine State Legislature, where she chaired the Health and Human Services Committee, and she has held posts at the National Academy for State Health Policy and London's Nuffield Trust.

She was selected for an Atlantic Fellowship in Public Policy by the Commonwealth Fund and the British Council. While in the UK, she completed the International Health Leadership Program at Cambridge University's Judge School of Management while pursuing graduate studies at the London School of Economics.
